

# HELP PARENTS BETTER HELP THEIR KIDS

## ONE-DAY TRAINING FOR ORGANIZATIONS AND GROUPS

**SAMANTHA MOE**  
AND ASSOCIATES

We offer one-day trainings for agencies, centers, schools, and organizations. Working onsite, we train groups of Social Workers, Mental Health Professionals, Occupational Therapists, Speech Language Pathologists, Educators, and other family service professionals in proven, positive ways to prevent challenging behavior and simple communication tools to engage parents.

### Our professional development days cover three key areas:

- 1. The brain science at the root of challenging behavior**
- 2. Positive, specific tools to prevent challenging behaviors - and in-the-moment troubleshooting strategies**
- 3. Parent-friendly language you can use to support the overwhelmed parent into their own behavior shift - no more guessing or worrying!**

Rest assured - our interactive, engaging trainings include out-of-your-seat exercises, real life case studies, and practical tips you can implement immediately!

Our trainings are specifically designed for professionals who work with intense kids and are also appropriate for kids who may have Sensory Processing Disorder, ADHD, Autism, Giftedness, Reactive Attachment Disorder, or Oppositional Defiant Disorder.

**Pricing:** \$185 / person; ask about our group pricing for organizations.

**Samantha Moe and Associates provides continuing education, advanced training, and certification for professionals who support intense kids and their families.**

Certified parent coach and speaker Samantha Moe has coached parents on how to help their children calm, connect, and cooperate since 2004. She is the creator of the Mad to Glad Blueprint, a revolutionary brain-and-nervous-system-based approach that soothes and even prevents challenging behaviors. Samantha holds a Master's degree in Communication Disorders from the University of Minnesota and possesses a background in interdisciplinary training in sensory integration, play therapy, and emotional integration.
